FROM THE CHAIRMAN'S DESK

SURYA GANESH VALMIKI

Chairman & Managing Director
Valmiki Group

My journey of establishing an overseas education group was inspired by my extensive experience in foreign education. In the early 2000s, when the first wave of international student mobility in India hit its apex, I realized the unparalleled potential of highly-skilled Indian students for global talent & leadership. Through my two decades of experience in the education industry, I witnessed many challenges that the student-parent community in India confronted throughout the entire process. This experience deeply motivated me to create a platform that places students' talents at the center of the process & imparts reliable, expert guidance to aspirants, which led to the establishment of Valmiki Foreign Education Services.

Since its establishment in 2001, the Valmiki Group earned its spurs as the most authoritative & trusted support system for students to embark on their international journey. Our unique approach to counseling, range of educational services & auxiliary services ensures that all our students get personalized support to study at premier institutes around the world. From profile assessments & university shortlisting to test preparation & VISA guidance, we provide cost-effective support for all stages of the overseas education journey. Over the years, the group has built an outstanding & dedicated team that always strives to deliver best-in-class services every single day. It gives me great pride to lead a team always committed to the pursuit of excellence in this dynamic field.

Additionally, as part of my commitment to the global education industry, I've travelled extensively to more than 20+ countries to make campus visits at 500+ universities, including some of the most prestigious universities in the world, to evaluate the quality of education & explore career opportunities for aspiring students.

WHAT IS ASSOCIATE BUSINESS ?

Associate Business is a B2B model where we collaborate with business partners or consultants.

Business partners are like-minded people who are already working in the overseas education industry to help recruit aspiring students to top universities abroad.
